Re: KY0003492
New Ridge Mining, LLC
DNR Permit 848-9024 MA 3
AI ID: 1718
Harlan County, Kentucky

Dear Mr. Sowder:

The referenced DNR permit application proposes to deconstruct the Right Fork slurry impoundment and reconstruct it to the original design elevation. The proposed work will not affect the outflow from the approved KPDES monitoring point at Sediment Lake 1. No new KPDES points are proposed, and no new watersheds are affected. The referenced KPDES permit number covers DNR permits 848-9023, 848-9024, and 848-5434. The renewal application is currently being reviewed. That renewal will be considered notice of this action, and an NOI does not need to be submitted.

Sincerely,

David Hinkle
Project Manager
